

archer.h

```
graph TD; archer_h[archer.h] --> unit_h[unit.h]; unit_h --> string[string]; unit_h --> vector[vector];
```

The diagram illustrates a dependency hierarchy. At the top is a box labeled 'archer.h'. A blue arrow points from 'archer.h' down to a box labeled 'unit.h'. From 'unit.h', two blue arrows point downwards to two separate boxes: 'string' on the left and 'vector' on the right.
